

2008 UltraTax Conversion Instructions

The conversion process does not, in any way, change or remove data in your original 2007 UltraTax data files. When you run a Drake conversion, the necessary data is read from the UltraTax data file and moved to a new Drake data file, leaving the UltraTax file exactly as it originally was. The conversion also creates the necessary folders for the Drake data files, making it unnecessary to install the Drake 2007 software in order to convert your client files. It is our intent to convert as much information as possible that will remain unchanged for 2008.

***Conversion Program Updates:** If you have an established internet connection, the conversion program, when launched, will automatically pick up and install any updates that have been released. To verify that you are running the latest conversion program, double-click the conversion program icon on your desktop and compare the version number at the bottom of the screen to the version number listed on our support web-site (support.drakesoftware.com). Once you are logged into the support site, click the Conversions link to see a list of all conversions offered and their latest version number. Our support website also provides you with a searchable knowledge base, states website, online EF database and many more useful tools created with you, the tax professional, in mind.*

Installation

1. Insert the UltraTax Conversion CD into your CD drive.
2. The Installation program should automatically run. If it does not, from your desktop, click the Windows **Start** button and then click **Run**. Type **d:\setup.exe** (substitute the correct drive letter if not D). Click the **OK** button.
3. The **Conversion Setup Wizard Welcome** screen will appear. Click the **Next** button.
4. The **Drake License Agreement** screen will appear. If in agreement, click the **I agree** button and click the **Next** button.
5. The **Destination Folder** screen will appear. This screen will allow you to choose where you want the conversion program installed. The default (recommended) location will be preset. Click the **Next** button to use the default location or click the **Browse** button to choose a different location and then click the **Next** button.
6. The **Menu Folder** will appear click the **Next** button.
7. The installation begins when a **Green** installation bar is shown on your screen. When the process is complete Click the **Finish** button.

Converting Files

1. To begin converting your client files click the UltraTax Conversion Icon on your desktop.
2. Choose which package to convert, 1040, 1120, 1120-S, 1065.
3. Verify the paths for your UltraTax Client File Location and Depreciation File Location. If your files are stored in a different location, use the **Browse** button to browse for the correct path.
4. Verify the Drake Files location for converted files.
5. If you want to convert a single client file, click the box that says 'Single Client', then type in the SSN or the EIN.
